
In its essence, the seamless integration has a way to change the measures of their business applications with the flexibility of their IP telephony system. They want extended access and improved security. And nothing else.

It’s called Unified Communications, and it’s changing the way successful businesses communicate.

Unified Communications Solutions from Toshiba provide essential features for presence, instant messaging, mobile unified messaging, enhanced call handling, and CRM integration to create a seamless, efficient workforce with increased access. With the Toshiba Unified Communications Suite, your organization can achieve productivity and performance— and you can ensure the employees to communicate efficiently wherever they may be.

Most businesses already have several ways to communicate with their customers, suppliers, and each other. They use office telephones, cell phones, voice mail, email, video conferencing, instant messaging, and more.

Toshiba Unified Communications Solutions from Toshiba provide essential features like presence, instant messaging, mobile unified messaging, access, call screening, simultaneous ringing at desk and mobile phones, schedule-based and caller-based routing of incoming calls, one number access, change your forwarding destination from any remote location for “on-demand” telephony presence status.

Anecdotal Exchange

Why Choose Toshiba Unified Communications?

Toshiba Unified Communications Suite provides a comprehensive solution.

Toshiba solutions are flexible, yet simple to deploy and easy to use and manage.

Single Server Architecture for Easy Deployment

The Toshiba Unified Communications Server integrates with the Strata CIX to host the Toshiba Unified Communications/Suite applications on one hardware platform for greater ROI.

The Toshiba Unified Communications Suite provides a comprehensive solution.

Comprehensive Communications: It’s All There.

Toshiba Unified Communications capably ties imager with the Toshiba Group, OSS BSS’s rich features, form comprehensive, integrated communication solution. Best of all, these engines work through a seamless user interface that is independent of the devices you use and works from any location.

Scalability, Performance, Ease of Use.

The Toshiba Unified Communications Suite is easily scaled, manage and use. You can nitpick the multimedia capabilities list that fits the specific needs of your business. Implement what you need today and add what you need in the future for maximum flexibility.
Discover Unified Communications

Application, enhancing your ability to communicate effectively.

This type of communications-enabled business process (CEBP) integration enables business applications and information databases to have maximum reach and convenience on the road. Toshiba solutions are flexible, yet simple to deploy and easy to use and manage.

Most businesses already have several ways to communicate with their customers, suppliers, and each other. They use office telephones, cell phones, voice mail, email, video conferencing, instant messaging, and more. Toshiba Unified Communications — Tailored for the Way You Work.

It’s a solution. The seamless integration you need to do more while lowering the cost of your business. Toshiba Unified Communications Suite enables employees to communicate effectively, wherever they may be.

Why Choose Toshiba Unified Communications?

Toshiba Unified Communications software discovers the mode of communication that best suits the conversation. It will find it when you need it, even if you’re on the go. Toshiba看好 you.

Comprehensive Communications: It’s All There.

Toshiba Unified Communications software provides the tools for remote connectivity and mobility to work from anywhere at any location. Toshiba solutions are flexible, yet simple to deploy and easy to use and manage.

Single Server Architecture for Easy Deployment

The Toshiba Unified Communications Server integrates with the Strata CIX to host the Toshiba Unified Communications Software applications on one platform. Unlike other manufacturers’ systems that require a dedicated server for each application, the Toshiba UC Server supports all Toshiba UC Software Suite applications on one platform, dramatically decreasing the cost and complexity of deploying multiple hardware servers. This server optimization lowers cost of ownership, maximizes ROI, and increases energy consumption.

Scalability, Performance, Ease of Use. The Toshiba Unified Communications Suite is ready to deploy, manage, and use. You can eliminate the expense of stand-alone boxes that meet the specific needs of your business. Implement what you need today and add what you need in the future for maximum flexibility.

Collaboration and Video Conferencing

Toshiba’s Unified Communications Suite provides a video collaboration and desktop conferencing application, file transfer, and messaging-based messaging capabilities. Sales, Suvs, and executives can conduct remote meetings that might otherwise require expensive travel.

Unified Messaging

OCS (Office Communications Server) provides enhanced unified messaging by sending an SMS message from a single email address. Access your messages directly from your email inbox or using only an Internet browser.

Presence and Instant Messaging

Presence brings together real-time activity and calendar status with desktop, instant messaging, and voice-to-mouse-to-call or instant messaging.

Desktop Call Control

Toshiba Strata CIX offers flexibility and growth, allowing you to add what you need in the future for maximum flexibility.

To implement what you need today and add what you need in the future for maximum flexibility.

Scalability, Performance, Ease of Use. The Toshiba Unified Communications Suite is ready to deploy, manage, and use. You can eliminate the expense of stand-alone boxes that meet the specific needs of your business. Implement what you need today and add what you need in the future for maximum flexibility.

Toshiba Unified Communications — Tailored for the Way You Work.

The Toshiba Unified Communications Suite enables employees to communicate effectively, wherever they may be.

Collaboration and Video Conferencing

This server optimization lowers cost of ownership, maximizes ROI, and increases energy consumption.

Scalability, Performance, Ease of Use. The Toshiba Unified Communications Suite is ready to deploy, manage, and use. You can eliminate the expense of stand-alone boxes that meet the specific needs of your business. Implement what you need today and add what you need in the future for maximum flexibility.

Toshiba Authorized Dealer Network
Toshiba Telecommunication Systems Division ingenuously brings to market cutting-edge telecommunication solutions that deliver the best in unified communications. Toshiba’s broad line of feature-rich, cost-effective IP phones, video collaboration, call center, and more. With more than 40 years of experience, Toshiba’s Telecommunication Systems Division and Authorized Toshiba Dealers provide your business with reliable world-class IP communications solutions that enable you to communicate the way you want, when and where you want.

Fulfilling Our Responsibility as a Global Enterprise
Toshiba’s mission is shaping a world where everyone can enjoy the benefits of a sustainable society. At Toshiba, we recognize the Earth is an irreplaceable asset, which is why it is the duty of humankind to hand it over to future generations as we found it, if not in better condition. Accordingly, Toshiba promotes solid environmental management practices across all its products and business processes focusing on prevention of global warming, control of chemical substances, and efficient utilization of resources.

As Toshiba, we are very aware of our current status and our ongoing activities to shape a more sustainable world. Toshiba realizes the importance of a commitment to environmental excellence as well as a clear understanding of how our activities affect the quality of what we do. With this in mind, Toshiba strives at all times to ensure products that we have technical environmental impact throughout their lifecycles. Toshiba products passed a rigorous environmental performance survey, and we’re proud to offer them to you as part of our Green-compliant portfolio.
